

## Dual Magnum 25 ft/lbs and 36 ft/lbs

.22 calibre FAC only

OUTSTANDING  
ACCURACY

### UNIQUE FIREARMS RATED AIR RIFLE

As its name suggests, this rifle is capable of two power levels. In tests the weapon has achieved 22 – 24ft/lbs on the first stroke and 30 – 36 ft/lbs with the combined dual action. However, the weapon can be run as low as 12ft/lbs on stroke one and 20ft/lbs on stroke two – by reducing ram pressure at the rear of the action. This is thanks to our patented H.E. gas ram system. It has no metal coil spring only a captive charge of nitrogen (or air). This gas charge is permanent and requires no 'topping up' or maintenance, but can easily be adjusted if required. This makes for a versatile rifle around farm buildings or for longer distances.

#### Specifications

- ⊕ Underlever air rifle
- ⊕ .22 calibre FAC power
- ⊕ Length : 111cm (43¾")
- ⊕ Weight : 4.1kg (9lbs)
- ⊕ No Maintenance
- ⊕ No Recharging
- ⊕ Hard coated loading port
- ⊕ 840fps with Bisley Magnums
- ⊕ Patented H.E. Gas Ram System
- ⊕ Superb Anschütz barrel
- ⊕ Evolution Trigger
- ⊕ Automatic Safety Catch
- ⊕ Dampa Mount System

#### Dual Power

Brand new underlever air rifle from **Theoben**. It's two guns in one with the Power Potential of...

- ... Cock once and the rifle will give 25 ft/lbs
- ... Cock a second time for a massive 36 ft/lbs

One rifle - Dual Power

The new Underlever from Theoben

High-tech TiN coated steel Loading Port

- Loading port coated with Titanium nitride (TiN) for total wear resistance, this gives it its gold colour - as used by the aerospace industry
- Loading port has automatic operation
- Fixed barrel design
- Theoben's brilliant 2 stage Evolution trigger adjustable down to 680g (1½ lbs) pull
- Low recoil, high efficiency patented gas strut system
