

RAPID ELAN with "DC Silencer"

Pre-Charged Pneumatic

.22 Calibre
7 Shot
Bolt Action

.22 calibre only

OUTSTANDING
ACCURACY

1/2" Group at 40 yards

The Light Weight Hunter

50 consistent shots from a miniature Buddy Bottle

The English word "*elan*" meaning style typifies this new air rifle from the Theoben development and production facility at Somersham. Satisfying the demand from many of our customers for a traditional style of rifle we have produced the "*Rapid Elan*" with a fully enclosed air reservoir, which enables the "*Elan*" to have the smooth and graceful lines of a classic in the making.

The DC Silencer

A new "*Dual Concept*" silencer has also been designed for this beautiful weapon which features both reflex volumetric and baffle designs in one elegant package. The muzzle blast initially passes into a large volume chamber, which is reflected back around the barrel. This reduces the initial pressure wave. The remaining air then passes through the unique Theoben baffle system, further reducing the signature. This makes the "*DC Silencer*" highly efficient.

This configuration makes a superb hunting rifle, with almost a pound taken off the overall weight compared to a Rapid 7. The stock is crafted from elegant American Walnut (*juglans nigra*). Hand cut chequering on pistol grip and fore end.

Specifications

- ◆ Bolt Action, pre charged pneumatic
- ◆ 12 ft/lbs .22 calibre only
- ◆ 50 consistent shots per charge
- ◆ 7 shots from an auto loading magazine
- ◆ .22 calibre, 41cm (16") choked Anschütz Barrel

- ◆ Length : 98 cm (38.6")
- ◆ 2 stage Trigger Pull 680g (1½ lbs)
- ◆ Recoilless

Filling the Elan
from 15 litre bottle

The Elan's new valving and gas flowing system gives 50 extremely consistent shots at just below the legal limit.

The gun has a 64cc bottle which nestles in the forend woodwork and is filled via a charging valve from a divers bottle or high capacity pump.
