Table shows regulated shots available at different power settings using H & N Ram Point (27 grains) pellets. Best accuracy with Bisley Superfield (24 grains).

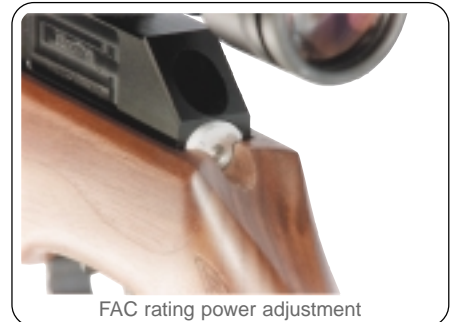

rear cap position	pellet name	feet per sec	foot pounds	per charge
	Ram Point	738fps	33ft/lbs	70shots
1/2 turn inwards	Ram Point	770fps	35ft/lbs	60shots
1/2 turn inwards	Ram Point	815fps	40ft/lbs	33shots

Lightweight pellets exceed 900 feet per second.

(As each rifle is hand made the above results may not be exactly the same for every rifle).
